

Last call for scholarship applications

Have you thought about applying for a scholarship through our Scholarship Program? You now have until **14 September 2022** to put in an application.

A scholarship can help you achieve your goals and reach your full potential. You can use the funding to pay for lots of different things such as:

- fees, materials and equipment for TAFE, university, community college or special interest courses
- courses in employment related skills, e.g., driving lessons
- school costs – textbooks, workbooks, uniforms, sports equipment, excursions
- tutoring and specialist skills development, e.g., writing courses or football academies.

In fact, the funding can be used for almost anything that could help you with your employment or personal development goals! In recent years, residents have achieved or are working towards some amazing things. Graham has created two acoustic guitars from scratch; Allison is pursuing her dream of playing piano and becoming a professional musician; Mark wants to make a positive impact in community housing; Tina is working towards a career in design; Alexander is learning to drive; and Julie is planning to return to midwifery.

With more than 100 residents awarded a scholarship just last year, this is a small snapshot of our success stories.

Need ideas?

Our Communities Team can give you ideas and advice for how you could use scholarship funding, such as courses you can join that are near you.

Ready to apply?

Please see the application form and information sheet that was sent to you with the August Resident Newsletter or ask for one to be emailed or mailed to you. Call **9412 5111** or email **communities@linkwentworth.org.au**.

You can only apply for one scholarship per year, however, there is no maximum number of scholarships per household. You will also need to send in documents to support your application. This might include a course acceptance letter, copy of course fees, and quotes for any equipment costs or sporting activities.
